5.1.3 PERSONAL COUNSELLING (2016-17)

The University Grants Commission (UGC) has directed all higher education institutions and universities to set up student counselling system. HEIs should mandatorily put in place a broadbased "Students Counseling System" for the effective management of problems and challenges faced by students. It should be a unique, interactive and target-oriented system, involving students, teachers and parents, resolved to address common student concerns ranging from anxiety, stress, fear of change and failure to homesickness and a slew of academic worries. It should bridge the formal as well as communicative gaps between the students and the institution at large. Teacher counselors, trained to act as the guardians of students at the college level, should remain in close touch with the students allotted to them (batch of 25 students) though out the year, cater to their emotional and intellectual needs and convey their growth report and feedback on attendance, examination results etc to their parents at regular interval of time. Teacher counselors can coordinate with wardens of hostels and exchange personal details of students, academic record and behavior patterns for prompt pre-emptive or corrective action. \neg HEIs should organize quarterly parents-teachers meet (PTM) so that grievances and gaps in system can be addressed and resolved. Online complaint registration system can also be launched so that issues can be addressed before they slip out of hands of authorities.

Personal Counselling -Mentoring system(2019-20)

Our faculty act as class counsellors and guide the students from diverse socioeconomic status with their academic and personal issues and there is peer mentoring system in which the advanced learners are motivated to guide the slow learners. This practice helps to build socio -economic harmony in the college. Mentors interact with the students regularly to assess the progress of the learner and motivate her to put in maximum effort to upgrade her skills and knowledge.
